

Description

CASA 101 is a self-sealing adhesive that requires no moisture.

Application

Surfaces must be clean and dry. Latex gum is applied to the seal flap and to the back flap where the seal flap touches when closed. When the two latex gummed surfaces are pressed together, a bond is formed, holding the seal flap to the body of the envelope.

Packaging

- 5 gallon pails
- 55 gallon fiber drums
- 275 gallon returnable totes

Shelf Life

One year from the date of manufacture in unopened container.

Manufacturer's Statement

The statements and technical information contained in this technical data sheet are based on tests and data which CASA Adhesive, Inc. believes to be reliable, however the occurring and completeness of such statements and technical information is not guaranteed. CASA Adhesive, Inc. makes no warranty expressed or implied, including, but not limited to any implied warranty of merchantability or fitness for a particular purpose. User is responsible for determining if the product is fit for a particular purpose and is suitable for user's method of application.
